

Mayors Report January 16, 2012

These past 2 weeks I was on holidays mixed with a bit of business. Provincial and regional district personnel are just really getting back to work now and the next weeks should be busy. As I was not here for the island wide meetings I will leave it to Dep Mayor Greg Martin and the rest of council and staff to bring me up to date.

This coming week I travel to Terrace for the NW Regional Hospital District where we will elect chair and Vice chairs and meet with Northern Health. The QC hospital will of course be on the agenda

Then it is back to the SQCRD in PR where Friday evening it is the regular meeting and budget discussions will start on Sat morning

MIEDS also meets this week before I travel and I will have the EDOs report for you at the next meeting. I do know that Ms. Hornoi had been asked to facilitate a Gwaii Trust meeting on economic development. According to our GT representative this meeting led to the GT board developing a better understanding of and then a definition of economic development. We should be hearing more in the future.
