

## MAYORS REPORT December 19, 2011

Since our inaugural meeting I took part in NH and Skidegate Health – Health Fair at Kaay Centre. It was amusing and fun but there was a great deal of information and resources available.

I am continuing to work on the HGHEs. Students start the end of the first week in January and we are at full.

I've eaten my way through making pizza at the school and the seniors Christmas lunch, as well as craft fairs and community pot lucks. I unfortunately missed Santa.

And I attended the Newly Elected conference with Councillors Cranston and Johnson in Terrace. The roads were awful but the conference was good. I will leave the report to our councilors.
